Look closely, everyone pictured here is an actual Job Corps student.

Job Corps can put you on the road to success.

Who you are:

- Age 16 through 24
- A U.S. citizen or legal resident
- Meet the program's income requirements
- Ready to learn, work, and become a leader

Who we are:

- A free education and job training program, administered by the U.S. Department of Labor
- A residential program – most students live on campus, learning at one of 118 Job Corps centers across the country
- A successful program that helps 70,000 students find promising careers each year
- A support network that helps students find great jobs, transportation, housing, health care and other necessities after graduation

Getting there

The Plan

We start with a plan. Not just any plan. This is your plan – a personal map to a better future. Our staff will work with you to set goals and develop your own career plan. We will teach you important computer skills that many jobs now require. You will learn how to build a resume, search for a job and slam dunk the interview. And it all starts the day you arrive.

The Education

Didn't finish high school? Thinking about college? Job Corps offers the academic training you need to succeed – in the workplace and the classroom. Train for a career and earn your high school diploma or GED at the same time.

The Training

So you want to be a mechanic. Or a nurse. Or a chef. Job Corps can show you the way. Learn from professionals in your chosen field. Gain experience through internships and projects with local businesses. Job Corps offers hands-on training in more than 60 career areas. (See back cover.)

The Support

Once you graduate, Job Corps will help you find a job and make the transition to the working world. Problems at work? Need help finding transportation or housing? Job Corps will stay in touch with you for a full year after your first day on the job.
